A guide for food and tobacco roasting, baking, and drying machine operators and tenders; food batchmakers; food cooking machine operators and tenders; packaging and filling machine operators and tenders; cleaning, washing, and metal pickling equipment operators and tenders.
Finding Your Way to a Career: Agribusiness Production

Food processing companies large and small rely on agribusiness production workers. These team members set up and operate equipment to produce food products in large batches. They perform a variety of tasks in the food production process to ensure a quality batch of product is created and that those products are consistent throughout multiple batches.
